

FOR IMMEDIATE RELEASE

Infinity Business Systems Announces Successful Completion of Managed Service Provider Accreditation For Client Network Operations Center

Tampa, FL, January 5, 2009- Infinity Business Systems (IBS), a leading provider of Managed IT Services and Hosted Solutions for small and medium-sized businesses (SMBs), announced today that it has received accreditation under the Managed Service Provider (MSP) Alliance Managed Services Accreditation Program (MSAP), including certification of their Client Network Operations Center (CNO). IBS joins an elite group of organizations, becoming the 50th accredited provider globally and the only accredited provider in the Tampa, Orlando, and Atlanta markets.

MSAP is the first program of its kind, specifically designed to provide customers of MSPs with the assurance that the services provider they hire meets or exceeds the highest principles of quality in the areas of financial stability, positive channel practices, product research and development, and MSP customer satisfaction.

Accreditation requires a written exam, professional references, MSP client references, certain financial disclosures, and an on-site inspection. IBS submitted its managed service infrastructure and services for MSP Alliance accreditation based on its ability to provide 24x7x365 monitoring and management of customer's networks. A key benefit of IBS' managed services is that the CNO allows clients to check their network status in real time, submit trouble tickets, change requests, and view monthly performance reports.

"Attaining the MSP Alliance NOC Accreditation is a noteworthy accomplishment for Infinity Business Systems." said Terry Hedden, founder and CEO of IBS. "Providing our customers with the security of knowing their information is safe and confidential has always been our top priority."

The MSP Alliance's Code of Ethics and Conduct provides a defined set of standards that every Alliance member agrees to meet and uphold. It covers client confidentiality, avoiding conflicts of interests, and dealing with clients in a professional manner. For a complete list of the ethical standards required by the MSPA, please visit :
