

COMPUTER RECYCLE PROGRAM CERTIFICATION

MSP Alliance™
 International Association of Managed Service Providers
Green IT Certified

Infinity Business Systems is pleased to announce our computer and electronics recycling program for all our valued customers! As a Green IT certified company, we are very committed to our green programs both internally as well as what we offer our customers.

IBS has teamed up with a company that responsibly recycles all electronic devices. This partner:

1. Has more than 40 years experience in the recycling business
2. Possesses all required permits and licenses.
3. Has a zero tolerance landfill disposal policy.
4. Has a 100,000 square foot facility in Tampa
5. Covers all of Florida
6. Donates a percentage of refurbished equipment to charitable and non-profit organizations.

Our goal is to help our customers properly dispose of these hazardous materials in such a way that it minimizes any potential liability to you while protecting the environment.

How it works!

1. IBS will set up an appointment to inventory all of your electronic equipment that you wish to dispose of.
2. IBS will then either arrange pick up, (depending on the amount), or transport it from your office.
3. IBS will then provide you with documentation that all equipment was disposed of in accordance with state and local laws.

We hope that you see this as another way that IBS is not only your IT Services provider, but your business and community partner.
